| 29.    | was an exception. By the 1850s, the city                           |
|        | schools that were good and popular with classes of white citizens. |
| 30.    | South Carolina's efforts in education were more vigorous and       |
|        | successful than at levels.   |
| 31.    | Though the state's white residents were average in                 |
|        | , a higher percentage of its population got a                      |
|        | education than in most states.                                     |
| 32.    | In the 1820s, the world of cotton went down and so did South       |
|        | Carolina's   |
| 33.    | In the first decade of the century, South Carolina was one-half of |
|        | all cotton in the United States each year. By 1821, the state's    |
|        | production amounted to only percent.                               |
| 34.    | Unfortunately, Carolina farmers and planter had not taken          |
|        | of their land. They grew until the land was out.                   |
| 35.    | Instead of, it   |
|        | was easier to clear more land and start over.                      |
| 36.    | Despite the low points, cotton continued to grow in in             |
|        | South Carolina and in the whole                                    |
| 37.    | Senator James Henry Hammond the United States Senate in            |
|        | 1858 that one should the South or slavery because                  |
|        | "Cotton is king."  |

|       | goods.  |        |
| 32.   | The issue of was raised dramatically in 1819 when             |        |
|       | applied for in the Union.                                     |        |
| 33.   | Northern opposition to slavery in the state set off a furious |        |
|       | over whether had the authority to                             |        |
|       | the spread of slavery.  |        |
| 34.   | Congress settled the issue temporarily by adopting the        |        |
|       | Compromise of 1820, which allowed Maine into the Union as a   | _state |
|       | and Missouri as a state.                                      |        |
| 35.   | This kept the number of states, and thus the of               |        |
|       | , balanced between free and slave.                            |        |
| 36.   | However, another of the compromise ruled that                 |        |
|       | the northern territories of the Louisiana Purchase were to be | _ of   |
|       | slaves.   |        |
| 37.   | in South Carolina lived in constant of                        |        |
|       | uprisings.  |        |
| 38.   | In 1822, two slaves in Charleston revealed a by Denmark       |        |
|       | , a slave who had   | _ his  |
|       | freedom with money won in a lottery.                          |        |
| 39.   | Dozens of slaves and were arrested.                           |        |
|       | Vesey and thirty-four others were, thirty-seven were          |        |
| 40.   |   |        |

| Name                | Class  | Date                             |
|---------------------|--|----------------------------------|
|                     | ople of the state began to close their<br>ere contrary to their notions of white |                                  |
| 42. South Carolina  | a was alarmed in 1831 by the news of   | the Nat                          |
| rebellion in Vir    | rginia. Turner led a small band of slave   | es in a they                     |
| hoped would s       | sweep across the South.  |                                  |
| 43. The Turner rel  | pellion  | _ southern whites' fear of the   |
| slaves in their     | midst.   |                                  |
| 44. It also made th | nem more certain that  | (people who wanted to            |
| do away with s      | slavery) from the North were   | up trouble with                  |
| their propagar      | nda.   |                                  |
| 45. As angry as So  | outh Carolinians were with free blacks   | and rebellious slaves, they were |
| even                | with northern  | advocates.                       |
| 46. In the 1820s, _ | states passed  | in favor of the                  |
| gradual             | of slaves in the Unit  | ted States.                      |
| 47. In the 1820s a  | nd 1830s, the population of all the nor  | thern states was                 |
|                     | rapidly.   |                                  |
|                     | preferred to sett  | le in the rather                 |
| than compete        | with labor in the S  | South.                           |
| 49. These develop   | oments hadcc   | onsequences. The North got a     |
|                     | in the U.S. House of Rep   | presentatives.                   |
| 50. In 1828, the C  | ongress passed an extremely  | tariff that the South            |
| labeled the Ta      | riff of Abominations.  |                                  |
|                     |  |                                  |

| Name <sub>-</sub> | Class   | Date   |
|-------------------|---|--|
| 51.               |   | (horrible, detestable) tariff,                 |
|                   | slavery?  | oush through legislation                       |
| 52.               | 2. John C. Calhoun, who was vice president          | in 1828, became a defender of                  |
|                   | rights and proposed a                               | way for South Carolina to protect itself       |
|                   | against the majority of the nation.                 |  |
| 53.               | B. Calhoun argued that a state could declare        | an act and                                     |
|                   | the law (declare it inv                             | alid and of no effect within the state).       |
| 54.               | South Carolina leaders like Robert Barnwe           | ell Rhett advocated                            |
|                   | (dissolving the state's connection to the na        | ation and becoming a separate nation) with or  |
|                   | without the company of other southern sta           | tes.   |
| 55.               | 5. A political struggle between Nullifiers and      | Unionists took place across the map of the     |
|                   | ·   |  |
| 56.               | S believed that the                                 | state could to obey or                         |
|                   | enforce a federal law that the state though         | t was unconstitutional or                      |
|                   | its states' rights.                                 |  |
| 57.               | believed that the                                   | ne state could best deal with political issues |
|                   | the Union, rather the                               | nan in defiance of federal law.                |
| 58.               | B. Governor James Hamilton, Jr., led the Nul        | lifiers in a well-organized drive to elect     |
|                   | Nullifiers, call a convention, and                  | the tariff.                                    |
| 59                | 9. In 1832, the Nullifiers called the Nullification | on Convention and declared                     |
|                   | and both the tariff of 18                           | 328 and a new one passed in 1832.              |
